

The Compliance Training Company

A catalogue of our global compliance training resources

Welcome

Welcome to the GRC Solutions Compliance Training catalogue. This catalogue includes a comprehensive list of all our global and regional courses, available across a range of regulated industries, as well as customisation and multilingual options.

Written by our team of experts, your employees receive practical, interactive, customisable and cost-effective training courses that support a culture of compliance and help change behaviours. Our courses are engaging, legally up to date, and accessible via your current learning management system (LMS) or via our Salt® Compliance platforms.

Our philosophy revolves around speed to competence. For us, that means helping time-poor learners achieve competence in the shortest amount of time possible while still ensuring that the training content remains legally comprehensive.

Our content catalogue is always growing to meet the regulatory compliance training needs of our clients. The Salt® Compliance platform is a powerful tool for managing compliance training across your organisation. Speak to our team about how we can assist you in managing your compliance training program.

Julian Fenwick
Managing Director

**Our philosophy revolves
around speed to competence.**

– Julian Fenwick

Our Philosophy

At GRC Solutions, we recognise that it is important to:

Keep reasonable demands on employees' time

Compliance training requirements are high and continue to rise. Written with ISO 19600 in mind, we aim to ensure that training is relevant and efficient for each employee.

Manage employees' perception of compliance training

We encourage respect for employees by recognising their prior knowledge and experience. Our adaptive eLearning courses and training plans help to give each staff member an individual experience.

Demonstrate compliance to regulators and shareholders

Given recent compliance issues in several industries, the relevant stakeholders continue raising their expectations about compliance training programs.

Update courses to stay consistent with latest regulations

Regulations are changing all the time. This makes it difficult for organisations to find high-quality courses at a reasonable cost. Our courses are maintained by our inhouse team ensuring that all regulatory updates are considered when updating our library.

Empower compliance teams with deep data analytics

Compliance staff using our Salt® Compliance platforms can access a range of reporting and data analytics. This ensures that they have a comprehensive picture of compliance across their organisations and enables them to actively identify problematic areas and proactively mitigate risks.

Our Content

Our learning design specialists work closely with high-profile industry experts to create content that is both engaging and legally accurate.

Speed to competence

We use advanced module allocation to ensure that learners only undertake content which is relevant to their roles.

Cross-jurisdictional training

We provide customisation and translation options so that you can deploy in every country your business operates.

Legally robust

We constantly apply legal and editorial updates to keep content accurate and up to date.

Accessible to all learners

We take accessibility requirements into consideration at every step of the content creation process, from writing to design.

More than just box-ticking

We design with our learners in mind, which means our content is as interactive as it is comprehensive. Every course comes with scenarios and real-life case studies to give rich context to plain theory.

Contact Us

Your business has unique delivery and reporting requirements. Use our fully-managed hosted learning platform, Salt®, to deliver your training, or let us integrate directly with your LMS using our innovative Salt® Adaptive system.

24/7 remote access

Learners can access their online training course from anywhere at any time, on any device.

Language and voice-over support

We can embed different languages in the same course, which is ideal for businesses operating in multiple jurisdictions.

Customisation options

Customise your business's Salt® LMS portal with your corporate colors, logo or a welcome message or introduction video.

A personalised training experience

Our Salt® Adaptive system identifies gaps in learners' knowledge then takes them straight to the material they may need a refresher on.

Upload your own policy

The Policy Builder feature lets you upload directly onto the portal and track which staff have read, accepted and acknowledged them.

Comprehensive reporting

Our platforms come with all the analytics you need to track participation and completion rates across your organisation.

Rapid content development and editing

We provide an easy-to-use editing tool that lets you create your independent bespoke content or update your Salt® Adaptive course in real time.
